

CARET SQUIRREL CAGE LAMP

Delivering a warm light, the CARET lamp is an ideal retrofit solution for the Edison Squirrel Cage Lamp, which will be phased out.

It is particularly suited for use in chandeliers and design fixtures, where the lamp is visible at all times.

As the lamp is dimmable, it helps to create the desired atmosphere.

Product data C0045.1 (Revision 1)

- **General characteristics**

Cap-Base	E27
Bulb	S65
Rated lifetime (hours)	25000 hrs.
Switching cycle	> 50.000x

- **Light technical characteristics**

Color designation (text)	Warm
Color rendering index	> 80
Color temperature	2300 K
Rated luminous flux	350 Lumen

- **Electrical characteristics**

Wattage	8 W
Voltage	230 V
Line frequency	50...60 Hz
Power factor	0.8
Current	40 mA
Dimmable	Yes, see recommended dimmer list
Starting	Rapid

- **Environmental Characteristics**

Energy efficiency label	A
Lamp mercury content	2,2 mg

- **Product dimensions**

Overall length	165 mm
Diameter bulb	65 mm
Diameter base	41 mm

- **Product data**

Order code	360.07.100
Full product name	CARET Squirrel Cage Lamp
Order product name	CARET
Pieces per pack	1 pcs
Packs per outer box	32 pcs
Net weight per piece	90 gr

- **Cleaning up breakages and disposal**

Cleaning:
Follow the advice for proper clean up*

Disposal:
Follow the instruction for disposal as special waste**

Warnings and safety

- Operating temperature range is between -10°C and +50 °C ambient
- Only to apply in dry or damp locations and most of open fixtures with lamp holders that offer sufficient space (10 mm free air space)
- Not intended for use with emergency light fixtures or exit lights.
- Do not mix revision 1 (C0045.1) with revision 2 (C0045.2) in the same luminaire.

* Breaking a lamp is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a closed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.

** Compact fluorescent lamps have to be treated as special waste, they must be taken to your local waste facilities for recycling. The European Lighting Industry has set up an infrastructure, capable of recycling mercury, other metals, glass etc.
